Continuation of 11. does NOT place the application in condition for allowance because:

Applicant has amended the independent claims and thereby changed the scope of the claims. For instance, it is noted that a "hyperlink" is narrower in scope than a "link". Further search and/or consideration would be necessary in order to fully evaluate such amendments.

Applicant argues on pages 13-14 that the references do not teach data management logic to automatically update a path of a link, because the Ferguson reference teaches the use of STG files which describe a corresponding electronic document, and not a link to a specific document.

The Office respectfully disagrees, noting that the references as a whole teach the recited claim language. It is noted that the terminology "link" is rather broad, and can be reasonably interpreted as an "association". In that regard the references may reasonably be interpreted as teaching a link to an electronic document as STG files are "associated with" an electronic document.

Therefore, the Office maintains the objections/rejections as set forth in the previous action. /RS/
